Universalist Unitarian Church

3000 West Richwoods Boulevard

Peoria, Illinois

Ms. Steingraber, author of *Living Downstream* and *Having Faith*, is returning to Central Illinois to raise funds for Peoria Families Against Toxic Waste. Her internationally recognized work in the environmental health field gives her unique insights into the ramifications of siting a toxic waste landfill over a community water supply and near a population center. Join us to learn the facts and hear firsthand the influence citizens can have when they get involved.

Presented by Peoria Families Against Toxic Waste & Heart of Illinois Group Sierra Club.
Voluntary donations will be accepted. For more information, call (309) 339-9733 or visit
